**Nissan 1, 6758**

**In the past 6758 years our beloved Assyrian Nation has enjoyed glorious times followed by centuries of extreme challenges. In the face of losing millions of our fellow Assyrians to massacres and genocide we are still here to face the challenges of this century.**

**Today it is our responsibility to continue on the path of preserving our culture, heritage and national identity, and to pass the torch to the upcoming generation living in our ancestral lands and the Diaspora. It is incumbent upon us to unite under one national identity and political agenda to guarantee life, freedom, and liberty for our people on the land of our forefathers. Therefore, we call upon all Assyrians from varied denominations and political affiliations to unite and strive together to achieve our ultimate nationalistic objective that is Assyria.**

**On behalf of the Assyrian Universal Alliance we wish a prosperous and happy Assyrian New Year to Assyrians worldwide.**
